The Manager  
Company Announcements  
Australian Securities Exchange  
4th Floor  
20 Bridge Street  
SYDNEY NSW 2000

Dear Madam/Sir,

**RE: ISS CONTRACT WITH ELNG**

Perth WA - ISS Group Limited (ASX:ISS) is pleased to announce that Egyptian Operating Company for Natural Gas Liquefaction (ELNG) has signed a Contract for the BabelFish Suite of products and associated services to the value of approximately AUD\$ 2,000,000 (AUD \$1,300,000 in the first year, and a further AUD\$ 700,000 covering maintenance and support over a 5 year period) for a Plant Information Management System (PIMS). The BabelFish solution will provide ELNG personnel with an integrated view of plant operations from planning to shipping.

The BabelFish PIMS solution will give plant personnel web access to plant data on their personal computers with projected benefits including:

- Single source for all plant information management
- Compliance with ELNG commercial and reporting commitments
- 24 hour technical support to plant operations
- Enhanced decision making processes.

ELNG is looking to implement an automated system to ensure high data reliability and strengthen the effectiveness of the operating processes executed by plant staff & management. BabelFish supported these requirements and with additional benefits, will support ELNG's PIMS business strategy for a comprehensive view of their entire plant data.

"We are very pleased to be working with ELNG to provide a wide-ranging PIMS solution. As Egypt's largest LNG exporter, (the implementation of) BabelFish will give access not only to plant data, but also forward looking production forecasts, enabling reporting performance against those targets. BabelFish will provide ELNG with a comprehensive and complete view of their operations." said Grant Eggleton, Global Business Development Manager of ISS Group.

About ISS Group Limited:

ISS Group delivers software solutions to the global energy, minerals and manufacturing industries. ISS Group was established in 1995 and listed on the ASX in 2004. The Company has
